

Appendix 7: TESTING RESULTS for the PRADA Mobile Phone

A -Excellent; B -Good; C -Unsatisfactory

Tested item	visibility of characters	visibility of graphs	visibility of pictures	Internet qualities (speed, visibility)	Functionality
Display pdf files					N/A
MultiMedia Display					
Word Document Display					N/A
Wireless connection via Coventry University Network					It can connect to the Internet, so there is no need to use wireless feature. The phone is wireless.
www.mymaths.co.uk	A	A			Cannot download the whole website, only display the HomePage, after entering Login and Password then Go, nothing happens, blank.
www.math4mobile.com	A	A			Home page can be displayed, but cannot download a game, after entering "http://math4mobile.com/graph2go.jad", it shows "Error MIDlet cannot be found at this URL. Please contact your operator for more info." Perhaps not Java enable?
www.mathtutor.ac.uk	A	A			The Home page can be displayed but the sub-menu on the left does not work
www.coventry.ac.uk	A	A			The Home page can be displayed, some hyperlinks work and some do not. CUonline can be seen.
Playing online games,e.g. www.dimenxian.com					The file is too big (50Mb) to be download

Appendix 7: TESTING RESULTS for the PRADA Mobile Phone

A -Excellent; B -Good; C -Unsatisfactory

Tested item	visibility of characters	visibility of graphs	visibility of pictures	Internet qualities (speed, visibility)	Functionality
BBC bitesize for GCSE revision: www.bbc.co.uk/mobile					From this website and follow the links (-learning->Bitesize->Game), the games cannot be downloaded as this application is not available for this handset.
www.bbc.co.uk/news	A	A			It works well.
Playing vedio					There is no Windows Media Player, it cannot play mathtutor's vedio tutorial.
Emailing	A				Available, small sized emails can be displayed and attachments cannot be opened.
USB					
MP3					Playing music well
Bluetooth					Available. I used Bluetooth to transfer a math game flie from Q1 to this Prada phone, it was not recognised as a game because the phone is not Java enable, so the file was automaticall put into a folder called "Others" rather than "Videos". The file was written in Java, downloaded from www.math4mobile.com.
Hyperlinking					working on most of websites like the BBC News
Word Processing & Windows Offices					N/A
